Multitenant Architecture :

CRMTiger offers 2 flavour of multi tenancy. Each one has same features except distribution of application.

Multi Instance Vs Multi Tenant

	Multi Tenant	Multi Instance
1	Single Application Source Multiple Database	Multiple Application Source Multiple Database
2	Single UI and database for each instance	Separate UI and database for each instance
3	Same extension management for each instance. means if we import extension for one instance available for all instance	Separate extension management for each instance
4	Customization required condition to check as Application source code is same for each tenant	Easy customization in each tenant if each customer has their own requirement

Features :

Master CRM (Super Admin Panel) :

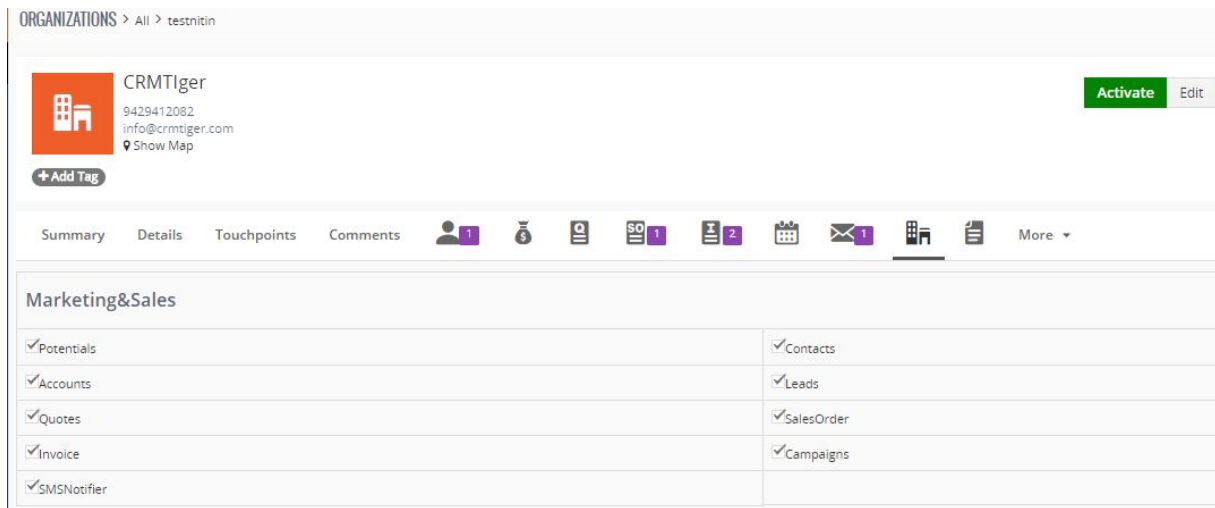

- **Intuitive Dashboard**
 - View latest tenant status
 - View # of tenant, # of user
 - View Paid/UnPaid/Outstanding invoices
- **Subscribers management (Leads)**
 - Create Leads when customer subscribe from marketing website.
 - Auto convert Leads to Organization when customer activate Payment
 - Manage all subscriber in one central location
 - Active/Inactive subscriber
 - Trial expiry management
